Fund Manager's report (March 8, 2010)

BoTR's successful 3y 3s19 re-issuance (3x oversubscribed) spurred buying interest in the secondary market. The paper fetched an average yield of 5.16 vs market expectations of 5.175 to 5.225 and lower by 9bps vs its original issuance of 5.25 last January. Cautious position-taking however was observed with yields moving lower by just an average 2bps W-o-W despite the huge market liquidity. The release of Feb CPI was a non-event as it came out within expectations at 4.2%. Speculations that BSP may again adjust liquidity measure this week kept some dealers at bay.
