FIRST METRO ASSET MANAGEMENT, INC.
INVESTMENT COMPANY ADVISER, FUND ADMINISTRATOR,
AND PRINCIPAL DISTRIBUTOR

THIS PROSPECTUS IS DATED
16 JUNE 2015
The number of securities to be offered, inclusive of what has already been subscribed to upon incorporation is 2.25 Billion (2,250,000,000) shares. One Billion (1,000,000,000) shares have been subscribed at par value of P1.00 per share. The price at which the additional One Billion shares are to be offered is based on the net asset value per share computed on a daily basis plus a front-end sales load fee. Using the Net Asset Value per share of Php5.9644 as of March 31, 2015, for the One Billion shares, the total estimated gross proceeds to be raised by the offering is Php5,964,400,000. The gross proceeds from the sale of the shares of stock of the registrant shall be held by the Issuer’s Custodian Bank which is The Hong Kong and Shanghai Banking Corporation. The shares to be offered are unlisted and will be traded through the over-the-counter market.

The Company will use the proceeds of the sale of First Metro Save & Learn Equity Fund, Inc. to invest primarily in listed and non-listed equity securities. However, as a tactical move, a portion of the Fund may also be invested in government securities, SEC-registered commercial papers, among other debt instruments. The assets of the Fund shall be structured based on market conditions, the level of interest rates, and liquidity needs of the Fund.

The Issuer is a domestic corporation, incorporated on May 27, 2005 as First Metro Save & Learn Equity Fund, Inc. (the "Fund"), with principal business office address at 18th Floor, PS Bank Tower, 777 Paseo de Roxas, corner Sedeño St., Makati City, Philippines, and Telephone Numbers: (632) 8912860.

It was registered on September 6, 2005 with the Securities and Exchange Commission as an Open-End Investment Company or "mutual fund". It is engaged primarily in the business of investing, reinvesting and trading in securities and the sale of its shares of stock. As a licensed Mutual Fund, it offers to the public, on a continuous basis, redeemable shares of stock, at a price related to the net asset value of the Fund's portfolio.

On December 4, 2014, the Securities and Exchange Commission (SEC) approved the amendment to the Articles of Incorporation of First Metro Save and Learn Equity Fund, Inc., increasing its authorized capital stock from One Billion Two Hundred Fifty Million (1,250,000,000) to Two Billion Two Hundred Fifty Million (2,250,000,000) common shares. Said amendments were approved by the Board of Directors on February 25, 2013 and ratified by the stockholders on May 23, 2013.

Various risk factors (i.e., stock market risk, interest rate risk, inflation risk, and manager's risk) can affect the market value of the assets of the Fund and cause the Fund's net asset value to vary over time. Consequently, there may be instances when the redemption prices of redeemed shares will be less than the prices at which the shares were originally purchased. Investors who redeem their shares during this time may not recover the full cost of their investment.

First Metro Asset Management, Inc. (FAMI) is the Investment Manager, Fund Administrator, and Principal Distributor of the Fund.
The total fees payable to First Metro Asset Management, Inc. (FAMI), is a monthly fee equivalent to one point eight seven five percent (1.875%) per annum of the average net asset value of the Fund's assets, computed on a daily basis. The "net asset value" shall be determined by computing the total value of the Fund's assets less its liabilities in accordance with the procedure used in computing the net asset value of each share of the Fund. In addition, as Investment Manager, FAMI shall be paid an incentive fee equivalent to ten percent (10%) of the realized appreciation in value of the Fund's net assets in excess of the "hurdle rate" defined as: PSEi annual performance +6.5%. FAMI will also receive from the Fund a sales load fee based on the following schedule:

RISK DISCLOSURE STATEMENT

I. GENERAL RISK WARNING

- The price of securities can and does fluctuate, and any individual security may experience upward or downward movement, and may even become valueless. There is an inherent risk that losses may be incurred rather than profit made as a result of buying and selling securities.

- Past performance is not a guide to future performance.

- There is an extra risk of losing money when securities are bought from smaller companies. There may be a big difference between the buying price and the selling price of these securities.

- An investor deals in a range of investments which may carry a different level of risk.

II. PRUDENCE REQUIRED

This disclosure does not purport to disclose all the risks and other significant aspects of investing in these securities. An investor should undertake his or her own research and study on the trading of securities before commencing any trading activity. He/she may request information on the securities and issuer thereof from the Commission which are available to the public.

III. PROFESSIONAL ADVICE

An investor should seek professional advice if he or she is uncertain of, or has not understood any aspect of the securities to invest in or the nature of risk involved in trading of securities especially those high risk securities.

Risks of Investing
An investment in the Fund is not insured or guaranteed by the Philippine Deposit Insurance Corporation or any other government agency. Although the Fund seeks to preserve the value of its investments, it is possible to lose money by investing in the Fund. The Fund's income will change as a result of movements in the stock market and other macroeconomic factors. No single fund is intended to be a complete investment program, but individual funds, such as this Fund, can be an important part of a balanced and diversified investment program. Mutual funds have the following general risks: returns
may vary, the investor may lose money, and the investor cannot be certain that the Fund will achieve its investment objective.

Risk Factors
Various risk factors can affect the market value of the assets of the Fund and cause the Fund’s net asset value to vary. Consequently, there are instances where redemption prices of redeemed shares may be less than the prices at which the shares were originally purchased. Investors who redeem their shares during this time may not recover the full cost of their investment. The following are the risk factors in their order of importance:

Stock market risk
Investing in shares of stock is generally riskier because of the volatility of the stock market. Changes in prices of equity securities that compose the Fund’s portfolio may substantially vary in a short span of time. The performance of the companies whose shares are included in the portfolio of the Fund are very much dependent on the people behind those companies. Added to that, stock prices are sensitive to political and economic conditions that normally change from time to time. To manage the risk, the stocks included in the portfolio will be cautiously selected by the investment manager based on their soundness and long-term profitability. Diversification of the stockholdings (not only in terms of the number of stocks but also in the different sectors and industries) of the portfolio will be done to reduce its impact.

Interest rate risk
If interest rates rise, the prices at which the assets of the Fund can be sold may fall. The longer the maturity of the assets, the more sensitive the prices of the assets will be to changes in interest rates. In other words, a long-term investment (e.g. 5-year Retail Treasury Bond) will have higher interest rate sensitivity than a short-term investment (e.g. 365-day Treasury Bill). To mitigate the risks, the Fund manager will diversify in terms of the type of securities (such as treasury bonds, notes, bills) and the time horizons of the said securities (such as one-year, 3-year, 5-year, 10-year, and above 10 years).

Inflation risk
Inflation risk is the risk that inflation may erode the real value of an investment by the Fund. One way to manage the risk is to actively trade in fixed-income securities, particularly government securities, which are valued on a marked-to-market basis.

Manager risk
The performance of the Fund is dependent upon the investment manager’s skill in making appropriate investments. As a result, the Fund may underperform in the market or compared to its peers. Also, the Fund could fail to meet its investment objectives. The board of directors of the Issuer will see to
it that all the investment policies and restrictions enumerated in this prospectus are strictly followed. The board will meet more often to continually monitor the investment manager’s performance in this area.

Dividends

The Corporation Code generally requires a Philippine corporation with surplus profits in excess of 100% of its paid-up capital to declare and distribute such surplus to its shareholders in the form of dividends. Notwithstanding this general requirement, a Philippine corporation may retain all or any portion of such surplus when (i) justified by definite corporate expansion projects or programs approved by the Board of Directors; or (ii) when the corporation is prohibited under any loan agreement with any financial institution or creditor, whether local or foreign, from declaring dividends without its/his consent, and such consent has not yet been secured; or (iii) when it can clearly be shown that such retention is necessary under special circumstances obtaining in the corporation, such as when there is need for special reserve for probably contingencies.

The Board of Directors of the Fund has adopted a policy, consistent with the Fund’s objective of capital appreciation, to retain the surplus profits of
the Fund in the retained earnings account. Such accumulation is reflected in the computation of the net asset value per share. Shareholders realize their gains when shares are redeemed. To date, there have been no distributions of dividends to shareholders. The Board of Directors of the Fund may amend the dividend policy as conditions warrant. In said event, the declaration of cash dividends is subject to the restriction that no dividends will be declared that will impair the capital stock of the company.

The fund has not issued cash dividends since its inception. The Board of Directors of the Fund may decide to declare dividends from the unrestricted retained earnings of the Fund at a time and percentage as the same Board may deem proper and in accordance with law. Dividends, if any, are automatically re-invested.

The Fund may declare or pay dividends but limits those dividends to come from the Fund’s accumulated undistributed net income, determined in accordance with good accounting practice and including profits or losses realized upon the sale of securities; or from the Fund’s earned surplus so determined for the current or preceding fiscal year.

Competition
The competitive environment for the company’s products includes not only the products and services offered by the other mutual fund players, but all other investment instruments that the target market has access to. The Philippine mutual fund industry is still a relatively young industry compared to those of other countries; however, it is growing at a fast rate for the past ten years.

Currently the big players in this category are Philam, BPI, and Sunlife. These companies have big sales force and they have life insurance companies as affiliates which they utilize to market their mutual funds. Two of these companies have big multinational financial institutions as their parent companies. They have longer track records and experience not only in the mutual fund industry but also in other financial products and services. The top three competitors represent around 63% of the total equity funds. Sunlife, BPI and Philam have P13 billion, P12 billion and P10 billion, respectively.

The Fund will compete with other equity funds which at present are also few. It will target potential clients all over the country with concentration in the major cities. The Fund believes that competition will be in the area of investment performance and client services. The Fund will be competing more in terms of investment performance. It will adopt active investment strategies and tactics. It will utilize its present network, database, and available technology to its advantage.

The institutional funds of the target market (especially the bigger ones) evidently have access to almost all types of instruments locally available such as unit investment trust funds, pre-need plans, universal life products and other bank products. The retail funds and smaller institutional funds, however, are limited to simple bank products. Appropriately formulated marketing strategies, sales tactics and promotional activities will be employed by the Fund’s principal distributor as it competes in this industry.

Effect of existing governmental regulation
Mark-to-market method of valuation, assesses both equity and debt instruments based on the current market price of those investment instruments. Therefore, the interplay of demand and supply of those instruments and other macroeconomic factors affect their prices. The changes in the prices of equities will be reflected in the value of the net assets of the Fund. The Fund’s net asset value per share (NAVPS) is thus affected by this mark-to-market valuation.

Subscription Procedure
Investments in mutual funds are covered by the Anti-Money Laundering Law. An Investment Application Form and signature cards must be submitted together with the appropriate payment. Once submitted, the Investment Application may not be cancelled in full or in part. An Investment Application, once accepted, shall constitute an agreement between the Investor and the Investment Manager and Principal Distributor at the time, in the manner and

Eligible Investors
The shares of the Fund may be purchased and held by any person of legal age or duly organized and existing corporations, partnerships or corporate entities regardless of nationality. The Articles of Incorporation of the Company provides, however, that no transfer of shares of stock of the Company which would reduce the stock ownership or equity interest of Filipino citizens to less than the percentage required by applicable laws or regulations shall be caused or allowed to be recorded in the proper books of the Fund. The Investor shall declare and warrant that there are no legal restrictions prohibiting the purchase of the shares applied for and that the Investor is otherwise eligible throughout the duration of the period that the Investor remains a stockholder of the Company.

Purchase of the shares of the Fund may be restricted by law in certain jurisdictions. Foreign investors interested in subscribing to the shares should get information on the applicable legal requirements under the laws and regulations of the countries of their nationality, residence or domicile and as to any relevant tax or foreign exchange control laws and regulations affecting them personally.

Requirements for Corporate Applicants
For Investors other than individuals, the following documents, in addition to the Investment Application Form and the signature cards, must be accomplished and shall be considered integral parts thereof: copy of the Investor's SEC Certificate of Registration, Articles of Incorporation and By-Laws; notarized corporate secretary's certificate setting forth the resolutions of the Investor's Board of Directors or equivalent body; authorizing the purchase of the shares of the Fund; designating the signatories for the purpose; and, certifying the percentage of capital stock held by non-Filipinos.

Offering Price
The net asset value computation shall be made in accordance with the valuation method indicated in the prospectus and shall be applied consistently. Any change in the NAVPS computation or valuation method shall be subject to approval by the Commission. Investment companies shall compute and post their NAVPS on a daily basis and shall publish such daily prices in at least two (2) newspapers of general circulation in the Philippines and shall post them daily in a conspicuous place at the principal office of the investment company as well as all its branches or correspondent offices which are designated redemption centers.
The daily cut-off time for the reckoning of the date of submission of the subscription application shall be 12:00 noon. If the application is received on or before the said cut-off time, the shares shall be valued based on the net asset value (NAV) per share for the same banking day. For applications received after the cut-off time, it shall be deemed to have been received the following banking day. In both instances, a sales load fee shall be charged based on the total price of the application. The NAV per share shall be the computed difference between total assets of the Fund and its total liabilities divided by the number of shares outstanding.

Subscriptions must be paid in full upon submission of the application for subscription.

Acceptance of Investment Applications
Applications for the number of shares and the applicable NAV are subject to acceptance and approval by the Principal Distributor. The Principal Distributor reserves the right to reject, scale-down and re-allocate any application for the shares for whatever reason. Applications for which check payments are dishonored upon first presentment, as well as those which do not comply with the requirements set in this Prospectus and Investment Application Form, shall be rejected.

The Principal Distributor shall inform the Investor of such reduction or rejection within three (3) days after submission of the Investment Application.

Payment Terms
Subscriptions shall be paid in full upon submission of a duly accomplished and executed Investment Application Form. Payments must be made in the form of personal or corporate check or cashier’s or manager’s check, drawn against a bank account with a BSP authorized agent bank located in Metro Manila. All such checks must be made payable to "First Metro Save & Learn Equity Fund, Inc.," dated as of the date of the Investment Application, and remitted directly to the Principal Distributor at its principal office. A provisional receipt will be issued initially to the Investor. Upon acceptance of the Investment Application by the Principal Distributor, a Confirmation Receipt will be issued to confirm the purchase of the shares of the Fund and to likewise serve as the Investor's Official Receipt.

Refunds
Refunds of payments for any rejected or scaled-down applications shall be made without interest by the Principal Distributor not later than five (5) business days after submission. The respective Investor shall receive a check, crossed "Payee's Account Only," mailed and delivered at the Investor's risk to the address specified in the Investment Application Form or to the corresponding distributor or any authorized investment salesmen of the Investor.
Delivery of Stock Certificates
Each stockholder of the Fund is entitled to receive a stock certificate representing ownership of the shares of the Fund. However, an Investor has an option not to request for stock certificates because the legal requirements for replacing lost certificates entail costly and lengthy procedures. Nevertheless, if an Investor still wants to receive a stock certificate, he must indicate so in the Investment Application Form. Stock certificates shall be made available to the Investor as soon as practicable at the office of the Transfer Agent. Any certificate that remains unclaimed for a period of thirty (30) days shall be mailed to the address specified in the Investment Application Form at the risk of the Investor.

Redemption of Shares
Investors in redeemable securities issued by an open-end investment company shall have the right to have their securities redeemed in accordance with the terms of the issue thereof and the procedures indicated in this prospectus. The redemption price surrendered before the daily cut-off time shall be the next computed NAVPS. Payments for securities redeemed shall be effected within seven (7) banking days from receipt of the request for redemption, in accordance to ICA Rule 35-1(e)(5) of the Investment Company Act. The Commission may, whenever necessary or appropriate in the public interest or for the protection of investors, suspend the redemption of securities of open-end companies. The investment company may establish a network of redemption centers acceptable to the Commission.

The holder of any shares of stock of the Fund, upon his presentation to the Fund in its principal office or to any of its duly authorized representatives of the confirmation receipt and stock certificate (if issued), and upon filing of the redemption request form, is entitled to receive by way of redemption approximately his proportionate share of the Company's current net assets or the cash equivalent thereof, i.e. the current NAV per share, subject to the existing laws and By-laws of the Company.

The NAV is then divided by the number of shares outstanding in order to arrive at the NAV per share.

For securities surrendered for redemption before the daily cut-off time of 12:00 noon, the price at which the Company's securities may be redeemed shall be computed based on the NAV per share on the banking day following the day when such request for redemption is received. Should the request for redemption be received after the said daily cut-off time, it shall be deemed to have been received on the following banking day, and the applicable NAV per share to be used as basis for redemption shall be that which shall be computed for the following banking day when such request for redemption is deemed to have been received.

There shall be no minimum holding period, however, redemption fees shall be deducted out of the redemption proceeds depending on the retention period.
Payments for redeemed shares shall be effected within seven (7) banking days from receipt of the request for redemption.

The Fund shall not suspend the right of redemption or postpone the date of payment or satisfaction upon redemption of any redeemable security in accordance with the terms appearing in this Prospectus, for more than seven (7) banking days after the tender of such security to the Corporation, except on the instances prescribed by applicable Philippine laws or regulations.

Benefits to the Investor
Mutual funds make saving and investing simple, accessible, and affordable. They offer professional management, diversification, liquidity, affordability, convenience, and ease of recordkeeping, as well as strict government regulation and full disclosure.

Professional Management
Even under the best of market conditions, it takes an experienced investor to invest prudently, and a further commitment of time to monitor those investments. With mutual funds, experienced professionals manage a portfolio full-time, and decide where to invest based on extensive research.

Diversification at Low Cost
Successful investors know that diversification will reduce the adverse impact of a single investment. Mutual funds provide diversification to your investment portfolio automatically by holding a wide variety of securities at a fraction of the cost of making such investments independently.

Liquidity
Liquidity is the ability to readily access your investment. Mutual fund shares are liquid investments that can be sold on any business day. Mutual funds are required by law to buy, or redeem, shares each business day.

Convenience
You can purchase or sell fund shares directly through a broker, bank or insurance agent, by mail, over the telephone, and increasingly by personal computer. You can also arrange for automatic reinvestment or periodic distribution of the dividends and capital gains paid by the fund. A wide variety of other services can be provided, including monthly or quarterly account statements, tax information, and easy access to fund and account information.

Protecting Investors
Not only are mutual funds subject to exacting internal standards, they are also highly-regulated by the Securities and Exchange Commission which has a direct and indirect impact on the environment where mutual funds operate.

Subject to the exceptions under the law, an investment company is any issuer which is or holds itself out as being engaged primarily, or proposes to engage primarily in the business of investing, reinvesting, or trading in securities. An investment company is either, an open-end company or a closed-end company.

On one hand, an open-end company is an investment company that offers for sale or has outstanding redeemable security, of which it is the issuer. On the other hand, a closed-end company is any investment company other than an open-end company.

To be incorporated as an investment company, the following requirements should be complied with:

1. Minimum subscribed and paid-in capital of Php50,000,000.00;
2. All shares of stock should be common and voting shares. In the case of open-end companies, the articles of incorporation thereof should expressly deny the pre-emptive rights of stockholders;
3. All the members of the board directors must be Filipino citizens.

The Investment Company Act, likewise, requires the registration of the investment company and of the shares of the investment company itself. Likewise, the Investment Company Act requires an investment company to place and maintain its securities and similar investments in the custody of a duly organized local commercial bank of good repute; or a company that is a member of a securities exchange as defined in the Securities Regulation Code subject to such rules and regulations of the Securities and Exchange Commission; or such registered company, but only in accordance with such

Dividends
The corporation may pay dividends only out of its unrestricted retained earnings, the unrestricted retained earnings of the corporation that have not been allocated for any managerial, contractual, or legal purposes and that are free for distribution to shareholders. The corporation may satisfy dividends in cash, by the distribution of property, or by the issuance of shares of stock. Dividends satisfied by the issuance of shares may only be paid with the approval of shareholders representing at least two-thirds (2/3) of the outstanding capital stock at a shareholders' meeting specially called for that purpose.

Declaration of dividends is generally discretionary with the board of directors. However, corporations with surplus profits in excess of 100% of their paid-in capital are required to declare and distribute the amount of such excess profits as dividends, except when the retention is justified by: Definite corporate expansion projects, programs approved by the board of directors, or when consent of creditors is required under any loan agreement, or when it can be clearly shown that such retention is necessary under special circumstances.

Rights of Minority Shareholders
The right of a shareholder to institute proceedings on behalf of the corporation in a derivative suit is recognized by Philippine law. Derivative suits may be filed where the corporation itself is unable or unwilling to institute the necessary proceedings to redress wrong committed against the corporation or to vindicate corporate rights. Derivative suits involving intracorporate disputes are filed before the Courts of general jurisdiction of the appropriate Regional Trial Court per Sec 5.2 of the Securities Regulation Code.

Shareholders have the right to inspect the records of the corporation at reasonable hours on business days. These records include minutes of all meetings of the board of directors and of the shareholders, and records of all business transactions of the corporation. However, the right of inspection may be denied if the shareholder seeking to examine the corporate records has improperly used any information secured through any prior examination of corporate records, or was not acting in good faith or with a legitimate purpose in making his demand for inspection.

Management
Corporate powers are exercised, all business conducted, and all properties of a corporation are controlled and held by the board of directors. However, a corporation may enter into a management contract with another corporation, for a period not exceeding five (5) years for any one term, subject to the approval of the board of directors and stockholders owning at least a majority (or in certain instances, two-thirds) of the outstanding capital stock of both
