Competition

The competitive environment for the company's products includes not only the products and services offered by the other Mutual Fund players, but all other investment instruments that the Company's target market has access to. The institutional funds of this market (especially the bigger ones) evidently have access to almost all types of instruments locally available such as unit investment trust funds, pre-need plans, universal life products, and other bank products. The retail funds and smaller institutional funds, however, are more likely limited to simple bank products. There is a big opportunity to tap into both the institutional and retail investors.

The registrant's main competitors are the other mutual funds in the Equity Fund category of Philippine mutual funds. It considers the funds of Sunlife, PAMI Equity, Philam, and Philippine Stock Index Fund Corp., as its main competitors. As of December 31, 2020, these four competitor Funds represent around 62.58% of the total funds in this category. The company will be competing initially in terms of return on investment (ROI) and later on in terms of Fund size.

Effect of existing governmental regulation

The Fund is governed by the provisions in its prospectus that incorporated relevant investment rules and regulations by regulators such as the Investment Company Act (ICA) and the Securities and Exchange Commission (SEC), among others.

Specifically, the Fund primarily invests in equity securities, however, as a tactical move, a portion of the Fund may also be invested in government securities and in SEC-registered commercial papers but taking precautions of the market conditions, the level of interest rates, and of liquidity needs.

Moreover, the Fund's investment activities are also guided by the following limits/conditions as set out in the revised Implementing Rules and Regulations (IRR) of ICA:

- a. Maximum investment in any single enterprise is allowed but only up to fifteen percent (15.00%) of the Fund's NAV, except for investments in securities issued by the Philippine government or its instrumentalities and, in no case, shall the total investment of the Fund exceed ten percent (10.00%) of the outstanding securities of any one investee company.
- b. The Fund must not invest, in aggregate, more than twenty percent (20%) of its net assets in transferrable securities, money market securities, deposits and financial derivatives issued by a single entity or issuer. Deposit should not exceed twenty percent (20%) of its net assets in a single bank/non-bank with quasi bank license.
- c. The investments of the Fund in deposits, debt securities or money market placements, over-the-counter financial derivatives placed in non-investment grade or unrated deposit taking institution, including unlisted shares issued by a related party, should not exceed five percent (5%) of its net assets and shall not exceed ten percent (10%) in aggregate amount.
- d. Investments in foreign government securities or money markets where the issuer or the guarantor is a government, sovereign or central bank with an international long-term issuer rating of investment grade may be increased to thirty five percent (35%) of the NAV, but only five percent (5%) is allowed for non-investment grade.
- e. The Fund manager is required to use a risk-management process that captures the risk associated with in the financial derivative instruments:
 - Total exposure should not exceed ten percent (10%) of the net assets or five percent (5%) if the derivatives are not investment grade, unless used for efficient portfolio management which the aggregate shall not be more than twenty percent (20%);
 - Five percent (5%) of the NAV shall be invested to liquid assets to meet all payment and delivery obligations;
 - The Fund Manager shall not act as a counterparty to an OTC derivative investment into by the Investment Company.
- f. Investment in its own securities are prohibited.
- g. Investments in margin purchases of securities, commodity futures contracts, precious metals, unlimited liability instruments, short selling of currencies and securities are not allowed.
- h. Purchasing or selling of securities other than capital stocks of the Fund from or to any of its officers or directors or the officers and directors of its investment adviser/s, manager or distributor/s or firm/s of which any of them are members is prohibited.
- i. The Fund shall not participate in underwriting or selling activities in connection with public distribution of securities except for its own capital stock.
- j. Lending operations to corporations or other entities, public or private, shall not be engaged without prior review and approval of its BOD. Approvals, however, are only to those determined to be financially sound.
- k. Investment in any company for the purpose of exercising control or management or to invest in the securities of other investment companies and real estate companies is prohibited.

The Fund believes that government regulations are intended to grow the mutual fund industry while protecting the interests of the investing public, thus, it will comply with the regulations imposed or to be imposed by government regulators. Also, the passage of the Personal Equity Retirement Account (PERA) and the Collective Investment Scheme bills into law will benefit the mutual fund industry.

EXECUTIVE OFFICERS

The list of officers is found in Item 5 of Part I above.

Principal Officers are appointed annually by the Board of Directors at its organizational meeting following the Annual Meeting of Stockholders.

Number of Employees

The Fund has no employees because all aspects of its operations and administration are subcontracted with third parties; hence it has no risks as far as labor problems are concerned.

Compliance with the Manual on Corporate Governance

First Metro Save and Learn Equity Fund, Inc. has adopted a good governance scorecard to measure and determine the level of compliance by the Board of Directors and top-level management with its Manual of Corporate Governance. Every end of the current year, the scorecard patterned after the SEC-prescribed Corporate Governance Self-Rating Form (CG-SRF) shall be accomplished by the Compliance Officer. The result of this evaluation is submitted to the Board together with the CO's recommendation for any sanctions of non-compliance. On the basis of this scorecard, the Compliance Officer has issued to SEC a certification on the Company's compliance with its Manual of Corporate Governance.

A compliance officer has been appointed to manage the Compliance System of the Company and to monitor and evaluate compliance with the Manual of Corporate Governance. In general, the Company is in compliance with the leading practices in good corporate governance. This was reported in a Certification by the Compliance Officer filed with the Commission on January 11, 2016. No director or officer of the Company was found in violation of the Manual.

As there shall be new SEC issuances, the Company is committed to comply with new requirements to enhance its corporate governance.

SALEF has identified the following major risks involved in its businesses and other operations:

Potential investors should read thoroughly all information contained in this Prospectus and/or other Fund related documents available before making any investment decisions. He or she should carefully consider all investment risks, fees, and/or other factors detailed in these documents to make certain whether the Fund's nature is appropriate for his or her investment profile and objective.

Various risk factors can affect the market value of the assets of the Fund and cause the Fund's net asset value to vary. Consequently, the returns of the Fund are not guaranteed and there is a risk that a Fund might not achieve its investment objectives.

The major risk factors facing the Fund are listed by order of importance below:

MARKET RISK is the risk of change in the value/price of financial instruments from fluctuation in foreign exchange rates (currency risk), market interest rates (interest rate risk) and market prices (price risk). The Fund's investments in equity securities may decline in value due to factors affecting securities markets generally, or particular countries, segments, economic sectors, industries, or companies within those markets. Historically, the markets have moved in cycles and the value of the Fund's securities and other financial instruments may move drastically up or down from day to day. The risk can be minimized by following the exposure limits set in this prospectus or by the Commission.

LIQUIDITY RISK (also called funding risk) is the risk that the Fund will encounter difficulty in raising funds within a reasonable time to meet short term financial demands. The Fund may not be able to generate enough cash to pay for the redemptions within the normal 7-day period. The risk can be minimized by placing a liquidity contingency plan that will provide a framework for addressing liquidity crisis situations.

The following are additional risks present in managing the Fund:

- Investment companies/mutual funds are neither insured with the Philippine Deposit Insurance Corporation (PDIC) nor any other agency of the government, nor guaranteed by the Fund Manager. Investors are advised to read the prospectus of the Fund before deciding to invest.
- Investors are exposed to the risk of dilution since other investors may subscribe to any amount of shares of the Fund. The influence that the investors can exert over the control and management of the Fund decreases proportionately.

The above risk factors are by no means all-inclusive. New and/or unidentified risks may arise any time given the dynamic financial markets and economic environment.

PART III - SECURITIES OF THE REGISTRANT

Market Price of and Dividends on the Registrant's Common Equity and Related Stockholder Matters

Below is the history of Net Asset Value per Share (NAVPS) of the Fund the first quarter of 2021, and for the years 2020, 2019 and 2018:

B. Shareholders

As of March 31, 2021, there are 16,800 shareholders of the Fund.

*On December 17, 2019, SEC approved the confidential treatment of the Top 20 shareholders of the Fund.

C. Dividends

The Fund has not issued any cash dividend since its inception. The Board of Directors of the Fund may decide to declare dividends from the unrestricted retained earnings of the Fund at a time and percentage as the Board may deem proper and in accordance with law. The Fund may declare or pay dividends but limits those dividends to come from the Fund's accumulated undistributed net income. The ability of the Fund to declare dividends therefore will be restricted by the amount of yearly net income generated. This would be dependent on the performance of the market and on the performance of the investment manager.

There are no securities of the registrant sold by it during the year which were not registered under the Code.

Legal Proceedings

The Registrant has no material pending legal proceedings to which it is a party. None of the Board of Directors is:
